Demolition Permit

WAC regulations define a demolition project as the wrecking, razing, leveling, dismantling, or burning (by a fire department for training purposes) of a structure, making the structure permanently uninhabitable or useable. Renovations include the removing of load bearing structural members, but not to the extent to make the structure uninhabitable.

The following information is merely a reference guide not a substitute for agency regulations.

1. A good faith asbestos survey must be conducted by a certified Asbestos hazardous Emergency Response Act (AHERA) building inspector. Qualified contractors and inspectors may be found in your local Yellow Pages, through the Washington State Department of Labor and Industries.
2. Asbestos samples must be sent to NVLAP Laboratory (National Voluntary Laboratory Accreditation Program) per 40 CFR 763.87. A list of labs can be found on ORCAA's website.
3. The start date on other structure demolition must be at least 10 working days from submission date of the complete application and payment.
4. It is the responsibility of the property owner and/ or demolition contractor to ensure there is no asbestos -containing material present in the structure to be demolished.
5. Any and all structures on the same parcel of the property that are not proposed to be demolished must be identified as such
6. A copy of the asbestos survey and approved Demolition Permit must be kept on site and be available for review by Agency inspection personal
7. The original permit will expire 1(one) year from start date. If the permit expires and the project is not complete, you must submit and pay for another demolition permit. Under no circumstances will a project extended beyond 1(one) year from original submission date.

ADDITIONAL REQUIREMENTS:

The Washington State Department of Labor & Industries and the local fire authorities may also require notification for asbestos removal projects.
