

APPLICATION FOR PUBLIC RIGHT OF WAY USE PERMIT

A public right of way use permit is required under Section 17.52 of the Uniontown Municipal Code for any use that restricts access to or use of a public right of way by the public. Examples of public right of way use requiring a permit include but are not limited to: extension of a structure or a sign over a public right of way, fencing of a public right of way or landscaping a public right of way in a manner that restricts the access of the public. Planting of street trees between sidewalks and curbs are required for some uses (Section 17.16.110 and 20.110) and permitted in most areas, however, the type of trees and the spacing of trees are restricted by the Town. Public right of way use applications are reviewed and approved by the Planning Commission (17.52.020). A public hearing is required if the use (other than street trees) will continue for more than thirty (30) days. Decisions of the Planning Commission may be appealed to the Town Council.
